Origins of the Lost Tribe

The origins of the Lost Tribe of the Sith can be traced back to an event known as the Great Hyperspace War. This conflict, which occurred approximately 5,000 years before the rise of the Galactic Empire, saw the Sith Empire clash with the Galactic Republic. During this tumultuous time, a group of Sith, fleeing the war and the Republic's forces, found refuge on the remote planet of Kesh.

The Journey to Kesh

1. The Great Hyperspace War: A massive confrontation that pitted the Sith against the Jedi and the Galactic Republic.
2. Fleeing the Conflict: The Sith, realizing the war was a losing battle, sought a place where they could regroup and establish a new home.
3. Discovery of Kesh: The planet Kesh, located in the Outer Rim Territories, became their sanctuary. It had been largely unexplored and offered the isolation they desperately needed.

Upon arriving on Kesh, the Sith settlers discovered a lush world rich with natural resources and a primitive indigenous population. They quickly set about establishing a new order, using their mastery of the Dark Side to dominate the local tribes and bend them to their will.

- Sacrifices: In some instances, sacrifices were made to appease the Dark Side, in hopes of gaining favor in battles or other endeavors.

The combination of these customs created a fierce and insular society that was deeply committed to the Sith way of life.
