The recipe for German chocolate cake first appeared in a Texas newspaper in 1957, featuring a layered cake topped with a coconut and pecan frosting. Since then, the cake has become a beloved dessert across the United States, inspiring various adaptations, including the popular German chocolate cupcakes.

Step-by-Step Instructions for Making German Chocolate Cupcakes

Creating these delicious cupcakes is a straightforward process that can be accomplished in a few simple steps. Below is a comprehensive guide to help you through the baking journey.

Step 1: Prepare Your Ingredients

Before you begin, ensure that all your ingredients are at room temperature for optimal mixing. Preheat your oven to 350°F (175°C) and line a standard 12-cup muffin tin with cupcake liners.

Step 2: Make the Cupcake Batter

1. In a medium bowl, whisk together the flour, cocoa powder, baking soda, baking powder, and salt. Set aside.
2. In a large mixing bowl, cream the softened butter and granulated sugar together until light and fluffy, about 3-5 minutes.
3. Add the eggs one at a time, mixing well after each addition. Stir in the vanilla extract.
4. Gradually add the dry ingredients to the wet mixture, alternating with the buttermilk, starting and ending with the dry ingredients. Mix until just combined.
5. Melt the German chocolate in a microwave or double boiler, then fold it into the cupcake batter until evenly distributed.

Step 3: Bake the Cupcakes

1. Divide the batter evenly among the prepared cupcake liners, filling each about two-thirds full.
2. Bake in the preheated oven for 18-20 minutes, or until a toothpick inserted into the center comes out clean.
3. Remove the cupcakes from the oven and allow them to cool in the pan for about 5 minutes before transferring them to a wire rack to cool completely.

Step 4: Prepare the Coconut-Pecan Frosting

While the cupcakes are cooling, you can prepare the frosting:

1. In a medium saucepan over medium heat, combine the sugar, evaporated milk, butter, and egg yolks. Cook, stirring constantly, until the mixture thickens, about 10 minutes.
2. Remove the saucepan from the heat and stir in the vanilla extract, shredded coconut, and chopped pecans. Allow the frosting to cool to room temperature before spreading it on the cupcakes.

Step 5: Frost the Cupcakes

Once the cupcakes have cooled completely, generously frost each cupcake with the coconut-pecan frosting. For a decorative touch, you can sprinkle additional chopped pecans on top.
