- 1 tablespoon icing sugar
- 1 egg yolk
- Cold water (as needed)

For the Topping:

- 6-8 medium-sized cooking apples (such as Bramley or Granny Smith)
- 100g (3.5 oz) butter
- 200g (7 oz) caster sugar
- 1 teaspoon vanilla extract (optional)

Step-by-Step Guide to Making Mary Berry's Tarte Tatin

Step 1: Prepare the Pastry

1. In a large mixing bowl, combine the plain flour and icing sugar.
2. Add the cold diced butter and rub it into the flour using your fingertips until the mixture resembles fine breadcrumbs.
3. Stir in the egg yolk and add cold water, a tablespoon at a time, until the dough begins to come together.
4. Form the dough into a ball, wrap it in cling film, and refrigerate for at least 30 minutes.

Step 2: Prepare the Apples

1. Peel, core, and cut the apples into quarters.
2. In a large, heavy-based frying pan, melt the butter over medium heat.
3. Add the caster sugar and cook until it begins to caramelize, stirring occasionally to prevent burning.
4. Once the sugar turns a golden color, carefully add the apple quarters and cook for about 10 minutes, turning them occasionally until they are just tender and coated in caramel.

Step 3: Assemble the Tarte Tatin

1. Preheat your oven to 190°C (375°F).
2. Take the chilled pastry from the refrigerator and roll it out on a lightly floured surface to a circle that is slightly larger than your frying pan.
3. Remove the pan from the heat and arrange the caramelized apples in the base, ensuring they are packed tightly.
4. Lay the rolled pastry over the apples and tuck the edges down around the apples.

Step 4: Bake the Tarte Tatin

1. Place the frying pan in the preheated oven and bake for 25-30 minutes, or until the pastry is golden brown.
2. Remove from the oven and allow to cool for a few minutes before inverting.

Step 5: Invert the Tarte Tatin

1. Place a large plate over the frying pan and carefully flip it over to release the tart.
