Setting Up Your Moultrie Universal Digital Timer II

Setting up the Moultrie Universal Digital Timer II is a straightforward process. Follow these detailed instructions to ensure proper installation and configuration:

What You Will Need

Before getting started, gather the following items:

1. Moultrie Universal Digital Timer II
2. Feeder compatible with the timer
3. Two AA batteries (not included)

4. Phillips screwdriver

Installation Steps

1. Open the Timer Compartment:

- Use the Phillips screwdriver to remove the screws securing the battery compartment cover.
- Carefully remove the cover to access the battery compartment.

2. Insert Batteries:

- Insert two AA batteries, ensuring they are oriented correctly according to the polarity markings inside the compartment.
- Replace the compartment cover and secure it with the screws.

3. Mount the Timer:

- Choose a suitable location on your feeder for mounting the timer. It should be easily accessible for programming and battery replacement.
- Use the mounting brackets or screws provided to secure the timer to the feeder.

4. Connect the Timer to the Feeder:

- Follow the manufacturer's instructions for connecting the timer to the feeder motor. This usually involves connecting wires, ensuring a secure fit.

Programming the Timer

Once the timer is installed, it's time to program it for optimal feeding schedules. Here's how to do it:

Initial Setup

1. Power On the Timer:

- Once the batteries are installed and the timer is mounted, press the "Power" button to turn the timer on.

2. Set the Clock:

- Press the "Set" button to enter the clock setting mode.
- Use the "+" and "-" buttons to adjust the hours and minutes. Press "Set" again to confirm each setting.

3. Programming Feeding Times:

- Press the "Feed" button to enter feeding programming mode.
- Select the desired feed time (1-4) using the "+" and "-" buttons.
- Adjust the hour and minute settings for each feeding time by pressing "Set" after each adjustment.
- Set the duration for each feeding by selecting the feed time again and pressing the "Duration" button. Use the "+" and "-" buttons to adjust the duration in seconds.

4. Review and Save Settings:

- After programming all feeding times and durations, press the “Review” button to check your settings.
- If everything looks correct, press the “Save” button to store your settings.

Troubleshooting Common Issues

Even with proper setup, you may encounter issues with your Moultrie Universal Digital Timer II. Here are some common problems and their solutions:

Timer Not Powering On

- Check Batteries: Ensure that the batteries are properly installed and have sufficient charge.
- Loose Connections: Verify that all connections between the timer and feeder are secure.

Feeder Not Dispensing Feed

- Check Timer Settings: Confirm that the feeding times are programmed correctly.
- Inspect Feeder Mechanism: Ensure that the feeder motor is functioning and that no blockages exist in the feed chute.

Inaccurate Time Display

- Reset Timer: If the time display is incorrect, try resetting the timer by removing the batteries for a few minutes and then reinserting them.
- Reprogram Clock: Follow the clock setting instructions again to correct the time.

Maintenance Tips

To ensure the longevity and functionality of your Moultrie Universal Digital Timer II, follow these maintenance tips:

- **Regularly Check Batteries:** Replace the batteries at least once a season or whenever you notice diminished performance.
- **Clean Connections:** Periodically inspect and clean the connections between the timer and the feeder to prevent corrosion.
- **Weather Protection:** While the timer is weather-resistant, consider using a protective cover during extreme weather conditions.

- **Store Properly:** If not in use for an extended period, remove the batteries and store the timer in a cool, dry place.

Conclusion

The Moultrie Universal Digital Timer II is a valuable asset for those looking to manage feeding times efficiently. With its ease of use, multiple programming options, and reliable performance, it enhances the likelihood of attracting game to your location.
