Getting Started with Optimal Blue

To make the most out of Optimal Blue, users should follow a few essential steps in their initial setup and usage.

Step 1: Account Setup

- **Create an Account:** Begin by visiting the Optimal Blue website and signing up for an account. Provide necessary information about your institution to get started.

- User Permissions: Set up user permissions for different team members. This ensures that sensitive information is accessible only to authorized personnel.
- Customization: Customize your account settings according to your business needs, including branding and workflow preferences.

Step 2: Training and Resources

- User Training: Optimal Blue offers various training resources, including webinars, tutorials, and user manuals. Utilize these resources to familiarize yourself with the platform's features.
- Help Center: The Optimal Blue Help Center is a valuable resource for troubleshooting and finding answers to common questions.

Navigating the Optimal Blue Dashboard

The dashboard is the central hub for users, providing access to all features and functionalities. Here's how to navigate it effectively.

Understanding the Dashboard Layout

- Menu Navigation: The main menu on the left side of the dashboard allows users to access different sections, such as pricing, lock management, and reporting.
- Alerts and Notifications: Keep an eye on the alerts section for important notifications regarding pricing changes, lock expirations, or compliance updates.
- User Profile: Access your user profile to manage personal settings and preferences.

Utilizing the Pricing Section

- Accessing Pricing Data: Click on the pricing tab to view real-time pricing data from various lenders. Use filters to narrow down options based on loan type, rate, and terms.
- Comparative Analysis: Leverage the comparative analysis tool to assess different lender offers and select the best option for your clients.

Managing Lock Requests

Lock management is crucial for securing favorable mortgage rates for borrowers. Here's how to effectively manage lock requests in Optimal Blue.

Initiating a Lock Request

1. Select the Loan: Choose the loan for which you want to initiate a lock request from your dashboard.
2. Lock Terms: Specify the terms of the lock, including the duration and applicable rate.
3. Submit Request: Once all details are filled in, submit the lock request. You will receive a confirmation once the request is processed.

Monitoring Lock Status

- Lock Dashboard: Use the lock dashboard to monitor the status of all active locks. This feature allows you to track expiration dates and potential extensions.
- Alerts for Expiration: Set up alerts to notify you ahead of lock expirations, enabling timely actions to secure rates for your clients.
