WHAT IS GROUP IRONMAN?

Group Ironman is a game mode introduced to OSRS where players band together in a group to tackle the game's challenges while maintaining the Ironman restrictions. Unlike regular Ironman accounts, which operate independently, Group Ironman allows players to share resources, experience, and quests with their group members. This mode encourages teamwork and collaboration, making the gameplay experience richer and more enjoyable.

KEY FEATURES OF GROUP IRONMAN

1. **Shared Resources:** Players in a Group Ironman can share items, which allows for more strategic planning and resource management.
2. **Team Experience:** Experience points are shared among group members, promoting teamwork and collaboration in leveling up skills.
3. **Group Goals:** Players can set collective goals, such as defeating bosses, completing quests, or reaching specific skill levels.
4. **Ironman Restrictions:** Group Ironman players still face the same restrictions as regular Ironmen, such as not trading with non-Ironman players and not using the Grand Exchange.

SETTING UP YOUR GROUP IRONMAN

Starting a Group Ironman requires careful planning and coordination with your chosen teammates. Here's how to effectively set up your Group Ironman journey:

1. CHOOSING YOUR GROUP

- **Select Compatible Players:** Choose friends or players who share similar availability and goals. Communication is key, so ensure everyone is on the same page.
- **Group Size:** A group of 2-5 players is ideal. Too many players can lead to chaos, while too few may limit resource sharing.
- **Balance Skillsets:** Aim for a diverse skill set within your group. Having members who excel in different areas (combat, crafting, gathering) can enhance your group's overall efficiency.

2. CREATING YOUR GROUP

- **Joining the Group:** One member must create the group and invite others. Ensure everyone accepts the invite to join the group.
