Operating the Oster Rice Cooker

Using your Oster rice cooker is straightforward, but following the manual instructions can help you achieve perfect results every time.

Basic Cooking Instructions

1. Measure the Rice: Use the provided measuring cup to measure out the desired amount of

rice. A standard serving size is typically 1 cup of uncooked rice, which yields about 2 to 3 servings.

2. **Rinse the Rice:** Rinse the rice under cold water to remove excess starch, which can lead to sticky rice.

3. **Add Water:** For most types of rice, the typical water-to-rice ratio is 2:1. However, check the manual for specific ratios depending on the type of rice (white, brown, jasmine, etc.).

4. **Season the Rice:** Optionally, add salt, butter, or other seasonings to enhance the flavor.

5. **Start Cooking:** Close the lid securely and plug in the rice cooker. Press the appropriate button to start the cooking cycle. The cooker will automatically switch to the 'keep warm' mode once the rice is done.

6. **Let it Sit:** Allow the rice to sit for about 10 minutes after cooking to allow for steam to escape and for the rice to settle.

7. **Fluff and Serve:** Use the provided spoon to fluff the rice gently before serving.

Cooking Different Types of Rice

Different types of rice require slightly different cooking methods and water ratios. Here's a quick guide:

- White Rice: 2 cups of water to 1 cup of rice.
- Brown Rice: 2.5 cups of water to 1 cup of rice.
- Jasmine Rice: 1.75 cups of water to 1 cup of rice.
- Basmati Rice: 1.5 cups of water to 1 cup of rice.

Always refer to the specific instructions in your Oster rice cooker manual for the best results.
