Installation Guide

Proper installation is crucial for the optimal performance of your Pioneer DEH S31BT. Below is a step-by-step guide to help you install the unit correctly.

Tools Required

- Screwdriver (flat and Phillips)
- Wire stripper
- Electrical tape
- Panel removal tool (optional)

Installation Steps

1. **Disconnect the Battery:** Before starting the installation, disconnect the negative terminal of the car battery to avoid any electrical shorts.
2. **Remove the Existing Stereo:** Use a panel removal tool to take off the trim around the existing stereo unit. Unscrew and carefully remove the old stereo.
3. **Connect the Wiring Harness:** Use the wiring harness included with the Pioneer DEH S31BT. Connect the wires according to the color codes—typically, yellow is for power, red is for ignition, and black is for ground.
4. **Connect the Antenna:** Plug the car's antenna cable into the back of the DEH S31BT unit.
5. **Insert the Unit:** Carefully slide the DEH S31BT into the dashboard slot. Ensure that the wiring is secured and not pinched.
6. **Secure the Unit:** Use screws to secure the unit in place. Make sure it is firm and does not wobble.
7. **Reconnect the Battery:** Reconnect the negative terminal of the battery.
8. **Test the Unit:** Turn on the car and check if the DEH S31BT powers on. Test the radio, Bluetooth, and other features to ensure everything is functioning correctly.
