Pokemon Unbound Evolution Guide

Pokemon Unbound, a popular ROM hack of Pokemon FireRed, has captured the hearts of fans with its engaging storyline, expanded Pokemon roster, and enhanced gameplay mechanics. One of the most crucial aspects of any Pokemon game is evolution, a process that allows Pokemon to transform into more powerful forms. This guide aims to provide you with all the necessary information on how to evolve your Pokemon in Pokemon Unbound, covering various methods, tips, and strategies to help you build the ultimate team.

Understanding Pokemon Evolution

Evolution in Pokemon is the process through which a Pokemon transforms into a different, usually stronger, species. This transformation can occur through various methods, and each Pokemon species has its own unique evolution requirements. In Pokemon Unbound, the evolution mechanics are similar to those found in the traditional games, but with some additional features and methods that make it even more interesting.

Types of Evolution

In Pokemon Unbound, there are several different types of evolution. Knowing these types can help you strategize your gameplay and ensure that you evolve your Pokemon effectively.

1. **Level Up Evolution:** Many Pokemon evolve when they reach a certain level. For example, a Charmander evolves into Charmeleon at level 16.
2. **Trade Evolution:** Some Pokemon only evolve when traded between players. For instance, Machoke evolves into Machop only through trading.
3. **Use of Evolutionary Stones:** Certain Pokemon require specific items known as Evolutionary Stones to evolve. For example, Eevee can evolve into Vaporeon, Jolteon, or Flareon when exposed to a Water Stone, Thunder Stone, or Fire Stone, respectively.
4. **Friendship Evolution:** Some Pokemon evolve when their friendship level with their trainer reaches a specific threshold. For example, Togepi evolves into Togetic when it has high friendship.
5. **Special Conditions:** Certain Pokemon have unique conditions for evolution, such as time of day or specific locations. For example, Eevee can evolve into Espeon during the day and Umbreon at night if its friendship is high enough.

Level Up Evolution

Level up evolution is one of the most straightforward methods to evolve Pokemon in Unbound. Here's how it works:

1. Experience Points (XP): Pokemon gain XP through battles, which allows them to level up. The more battles a Pokemon participates in, the more XP it gains.
2. Evolving Mechanism: Once a Pokemon reaches its required level, it will prompt to evolve after a battle, and you can choose to allow it or cancel the evolution.
3. Tips for Leveling Up:
 - Use the Exp. Share: This item allows Pokemon not actively in battle to gain half the XP from battles.
 - Participate in Trainer Battles: Trainer battles provide more XP than wild Pokemon encounters.
 - Utilize Lucky Egg: When held, this item increases the XP gained from battles by 50%.
 - Battle in High-Level Areas: Fighting with higher-level Pokemon will yield more XP.

Trade Evolution

Trade evolution adds a social aspect to Pokemon Unbound. Here's what you need to know:

1. Identifying Trade Evolutions: Some Pokemon, like Machoke and Gloom, require trading to evolve.
2. How to Trade:
 - Local Trading: If you're playing with friends, you can trade directly via the game's trading system.
 - Using Emulators: If you are using an emulator, you may need to set up a link between two instances of the game.
3. Tips for Trade Evolution:
 - Prepare Your Team: Make sure your team is strong enough to handle battles post-evolution.
 - Communicate with Friends: Coordinate trades with friends to ensure you both get the Pokemon you want.

Evolutionary Stones

Using Evolutionary Stones is a fun and straightforward way to evolve certain Pokemon in Pokemon Unbound. Here's how it works:

1. Types of Evolutionary Stones:
 - Fire Stone: Used to evolve Vulpix into Ninetales and Eevee into Flareon.
 - Water Stone: Used for evolving Poliwhirl into Politoed and Eevee into Vaporeon.
 - Thunder Stone: Used to evolve Pikachu into Raichu and Eevee into Jolteon.
2. Finding Evolutionary Stones:

- Locations: These stones can be found in various locations throughout the game or purchased from specific vendors.
- Hidden Items: Sometimes, they can be found as hidden items in different areas.

3. Tips for Using Evolutionary Stones:

- Plan Ahead: Make sure you know which Pokemon you want to evolve before using the stones.
- Save Your Stones: If you're not sure, save the stone until you've leveled up your Pokemon to a higher level.

Friendship Evolution

Friendship evolution requires a different approach. Here's how you can evolve your Pokemon through friendship:

1. Increasing Friendship Levels:

- Battling Together: The more your Pokemon battles and the more they participate in battles, the higher their friendship level will increase.
- Walking Together: Keeping your Pokemon in your party and walking around will also increase friendship.
- Using Items: Items like Soothe Bell can help increase friendship levels faster.

2. Checking Friendship Levels: You can check a Pokemon's friendship level by speaking to specific NPCs located in various towns.

3. Tips for Friendship Evolution:

- Avoid Fainting: If your Pokemon faints in battle, it will decrease its friendship level.
- Feed Berries: Certain berries can increase friendship, so make sure to feed your Pokemon these items.

Special Condition Evolution

Some Pokemon in Pokemon Unbound evolve under special conditions. Here's an overview of how to achieve these evolutions:

1. Time of Day: Some Pokemon, like Eevee, evolve depending on whether it's day or night.

2. Location-Based Evolution: Certain Pokemon need to be in specific areas to evolve. For example, Magneon evolves into Magnezone in a specific area.

3. Using Items: Some Pokemon, like Porygon, require an item to evolve into their final forms.

4. Tips for Special Condition Evolution:

- Use In-Game Clocks: Sometimes, the in-game clock can help you determine the time for evolution.
- Research Locations: Make sure to research where specific evolutions happen to avoid wasting time.
