Answers to the Sample Test

Now that you've completed the sample test, here are the correct answers:

1. Analogies: a) Meow

Explanation: The relationship between a dog and its sound (bark) is similar to that of a cat and its sound (meow).

2. Series Completion: c) 32

Explanation: The pattern doubles each time ($2 \times 2 = 4$, $4 \times 2 = 8$, $8 \times 2 = 16$, $16 \times 2 = 32$).

3. Pattern Recognition: d) □

Explanation: All other shapes are geometric shapes with straight edges, while the blue circle is round.

4. Spatial Reasoning: d) 56

Explanation: The smaller cubes without paint are those in the center, which total to 8. Therefore, $64 - 8 = 56$ have paint.
